OH, YES, YOUR BOOK . . . !

Shall I finish the thought? Or have guilty minds already Major, then promptly re-enlisted as tomato soup. Yum! Yum! framed the conclusion of the incompleted topic? "Oh, yes, your book . . . is over in my room, but I promise to return it tomorrow!"

"What!" you are saying, "another gripe?" But don't you think that it's a just gripe?

So often I have heard, "If So-and-So doesn't return my books, etc," or "Someone has had my Lit. book for three semesters!"

I advise every textbook loaner to carefully tabulate their supply as to the present renter or borrower. These people who are fortunate enough to get access to a text should be grateful for not being required to buy one. They should realize that it is their responsibility to return the borrowed book in the same condition in which they received it.

How many people realize that this seemingly insignificant business of borrowing books helps to reval their character.

Would you trust a person to whom you had loaned a text, and who had never bothered to give it back? Or maybe these gaping holes, oozing blood, disemference. R. V. Blasingame, Head of Where youth, in all its blissfulness "smart" persons would rather pay out four or five dollars for new boweled casualties, and scores of the Home Economics Department, books! And that is what they will have to do if this book stealing—yes, it amounts to nothing less than stealing—does not ets complained of feeling sick—then

Your treatment of a geography book, or history book reflects on your character. A returned book, full of pencil or ink marks, denotes a flighty character, a very irresponsible person. But then, you say, "Be glad you got it back at all!" to yourself. That is the general attitude at present. It is like pulling teeth to be able to rent a book, because the owners are afraid they will never see the books again if they part with them.

"Treat them gently!" This quotation was taken from a were simply plastic buildups of flesh, lengthy discussion by one of the teachers on the subject of books. These volumes are mediums of learning in this and every other institution. This classification makes them important, thus rendering a person who has been lax in returning borrowed books responsible for retarding someone's progress in a specific course.

Why is it that students have this strange "affiliation" for books which are not theirs? The Mansfield State Teachers College Library has also complained about the absence of volumes Monday and Wednesdayfrom its shelves.

Let us all resolve to return our borrowed books. Remember, there is an acute shortage of text books, and both teachers and students alike are suffering from it. So the next time you clean your room, dig out these books, look inside, and if you find that they belong to someone else, return them as quickly as possible! ming Pool, Student Center, and Gym-

MUSIC IN THE AIR

On Friday evening, February 27, 1948, at eight o'clock, the Symphonic Orchestra, under the direction of cherished positions of the group and Sigmund Michota, gave a program in Straughn Auditorium.

Besides the regular strings - violins, violas, cellos and basses-there were flutes, oboes, clarinets, bassoons, french horns, trumpets, trombones, tuba percussion, and harp.

Following is the program: I. Ruslan and Tudmila Overture, Glinka.

II. Beethoven 3rd Piano Concerto, (First Movement), Charles Thomas, Soloist.

III. Introducing the Harp to the Orchestra, "Music Box," Liadow-(Miss Jeanne Ayers - Harpist).

IV. Beethoven Symphony No. One, First Movement.

V. March of the Mastermyers, Wagner.

MANSFIELD STILL LEADS STATE TEACHERS CONFERENCE

The Mansfield "Mountaineers," with a record of five wins and one loss, lead the State Teachers College Basketball Conference with West Chester and California not far behind. On March 5, the team goes to Millersville where they tackle a strong and hard-fighting quintet. The next night they play Shippensburg on a strange floor, and from all reports, can expect a hard battle.

Though both Mansfield and Lock Haven each lost two conference games last year, Lock Haven was declared mythical chapion since they played more teacher colleges.

By winning the remaining two teachers college games, Mansfield will settle the championship question for Wawer f 2 1 this season.

Lets' go, fellows! We are all for McLaughlin c 5 9 19

THE MOUNTAINEERS

ON THE ROAD

The Mansfield Mountaineers who are now heading the Pennsylvania State Teachers College Basketball Conference have played five games away from home, winning 4 and losing 1. Mansfield was handed their first setback of the season when they journeyed to Ithaca College. They bounced back and scored two successive victories over Bloomsburg State Teachers' and Kings' College of Wilkes-Barre. After winning five straight games, they were handed a jarring set-back by the Bald Eagles of Lock Haven State Teachers' College. The Mountaineers have three remaining games away. They are Scranton University, Millersville State Teachers, and Shippensburg State Teachers. They also have two home games with Scranton University and King's College. The King's College game will be played early in

AMENDOLA AND KATUSZ ELECTED CO-CAPTAINS FOR 1948 SEASON

The football squad selected as cocaptains for the 1948 football season Anthony Amendola and Joseph Katusz. Both men will be seniors next year and have good academic, as well as athletic records.

Amendola was that shifty fellow in the 1947 backfield. At the Cortland game one local fan was heard to ask, "How can they stop him The box score: when they can't get hold of him?"

Katusz was that quiet fellow at MANSFIELD position on the line.

MANSFIELD DEFEATS LY-COMING IN OVERTIME PERIOD

The Mountaineers were forced into an overtime period by an aggressive Lycoming College Quintet. The win enabled the Mountaineers to end a two-game losing streak. Sparked by their high scoring forward, Joe Harrington, they outscored Lycoming in the extra period, 8 to 1. Though Mansfield led most of the way, Lycoming took a four point lead in the last canto and, with less than two minutes to play, George Ott and Tex Randon scored from the field to knot the score as the regular playing time ran out. Going into the extra period, the Mountaineers drew first blood when Bill Johnson converted a foul. Joe Harrington then scored a field goal and Ray Mazza converted a foul to give the Mountaineers a four-point lead. Sowers then converted a foul to give Lycoming their only point. Harrington then converted a foul and Ted Randon came up with a field goal and a foul to bring the score up to 59 to 52. Joe Harrington led the Mountaineers with twenty-seven points.

Mansfield State Teachers College

FOREWORD

Believing that the activities of any school should embrace a publication, the Emersonian Literary Society, with the willing cooperation of the other organizations, offers "THE FLASH-LIGHT" for your approval, hoping that it will fulfill in a modest way this long felt need. We, the students of M.S.N.S., have every reason to feel ashamed when we contemplate the student publications of other schools, realizing that our institution with all its talents and resources can offer nothing of the kind.

To remedy the situation this paper has been attempted.

If you find these pages dry and uninteresting if you are inclined to sneer at its smallness or if the jokes seem crude and outof-date, just stop and consider the time and effort required, because of our inexperience, in the compiling of these lines.

Bear with us for who knows but that from these simple beginnings there may spring a paper worthy of ours or any institution. We sincerely hope that our efforts will not die, but live to the different organizations on the wasn't much school "spirit" when he inspire our successors with the desire for a better and bigger publication in the coming year.

(From the First Flashlight)

Thus wrote the originators of the Flashlight twenty-two years ago. Much has happened and much has been written since that time long ago. Much time and effort is required to edit a paper regardless of the size of the paper or the frequency of its publication.

We wonder if the first staff prepared the copy at the stated time, if some of the members forgot to turn in their assignment at all, if, in short, they were responsible staff members? If a paper is to reflect the life on the campus the entire staff must accept their assignments seriously and be dependable. They can't go home for a vacation and leave their work unfinished and unaccounted for in the hope that some one else will do it or without caring what happens.

Then, too, organizations and activity groups on the campus can help or hinder the work of the staff. Do they passively wait for their activities to be written up and publicized, and complain if they are not, without doing anything about it? The program makers of the various organizations can help immeasurably by submitting items of interest before they happen or as soon as they occur to the staff. Staff members are students and have only a limited time for editorial work. They see only a part of the life on the campus and will appreciate receiving information from those that the surrounding countryside was ple whom he was trying to entertain who actually participate in the various phases of college life.

LETTERS TO THE EDITOR

Dear Editor:

Monry Eller Duggell

I am only one of the many who had the pleasure of hearing Mr. Ramsey, our recent Assembly speaker. His talk was delivered in such a manner as to prove most interesting, and there was not the least doubt that his feelings were strongly antiwar and anti-communistic. He was a far cry from several off campus lecturers of the past whose leanings were not quite clear to some students.

ture was very educational and highly enlightening on the conditions of world affairs.

Dear Editor:

Why doesn't Mansfield State Teachers' College have more than a "three sports program"? With possibly the largest enrollment in its history, more sports should be added to the program.

For the person who is not physically able or does not have the ability for football, basketball, or baseball, no organized sports are offered in which he can participate. There are many boys on the campus who have participated in boxing, wrestling, tennis, or track during their high school years. If a few fo these sports were added to the program teams of the same level could be produced.

Not only would it allow more students to become active in sports, but it would add interest for the students. I understand that this is not a Physical Education College, but I believe a wider sports program should be offered.

Dear Editor:

ter and am much surprised at the very small student-body turn out.

Since the day students are forbidden to study in an unoccupied room in Alumni Hall, where are they going to study besides in the library?

Here we are I am only sorry that more students with a brand new set of personalidid not attend, for I believe his lec- ties and first on our list is Joe Ennis ("Hook" to us), 22, from Towanda. Joe graduated in 1943 and went into the Navy. He served three years with the Blue Jackets. His ble for bringing Mr. Ramsey to our favorite dish is a large steak smothered with small ones. Joe is a great sports critic; he's been spending his spare time watching the Mountaineers go through their spaces. By the way, he is the father of a baby girl who is eight months old. Luck and happiness to you and the family.

Nancy Becker, a sweet little freshman from East Mauch Chunk, is eighteen years old, and a member of our Home Ec. Department. She prefers her own name, "Nancy." enjoys French Fries and Hot Fudge Sundaes. Now she doesn't mean a combination. In her leisure time, she climbs to seventh floor and plays piano. A. P. SELECTIONS

Joe Harrington this past season has been named on the A. P. All-State Teachers' College team and has received honorable mention on the 'A. P. All-State College team. This brings state-wide recognition, both for Joe as a basketball player, and for the Mansfield Mountaineers coached by Ted Casey.

Though a high-scoring record is of value, it is ont the sole criteria used in making selections for these mythical teams. Joe has been a team man throughout the season, time and again passing to his fellow players who were in a better position to score. Quite a few of his twopointers were the result of tap-ins at the basket. In one game alone he collected eight points this way. Defensive work is important and here again Harrington ably covered his turn our attention to our third major Wednesday, April 28 - Bloomsburg assignment.

moving action of modern plots, it presents in three acts and several scenes of a group of people in rural England. The play concentrates on Mrs. Bennetts' determination to get her daughters married. Jane, Elizabeth, and Lydia are lovely looking girls in a period when a woman's one possible career is matrimony. To be a wife was success. Anything else was failure.

Jane and her Mr. Bingley and Lydia with her Mr. Wickham, are quite content with the good of things as they are; not Elizabeth! She actually refuses to marry Mr. Collins whom she openly deplores and Mr. Darcey, whom she secretly adores.

The play is the story of the duel between Elizabeth, and her pride, and Darcy, and his prejudice. Each gives in before the evening is over, and pride and prejudice meet halfway. The cast is very large and the delicate artificiality of the characterizations difficult. The members of the Players are eager that both students and faculty will support and enjoy their fifth classic comedy.

EDITORIAL

In an informal poll taken recently by The Flashlight Staff several minor gripes were found to be had by the students. Believing a newspaper's two goals are the coverage of the news and the airing of issues, we wish to enumerate these.

In order of the number of times they were cited, they are:

1. cheating in tests.

Typists: Helen Samson, Wellington Lester.

- 2. dining room manners.
- 3. a poor school paper.
- 4. not enough intercollegiate athletics.

We are hoping to eliminate the third one and with your help we will.

We feel that one of two solutions can be employed in the cheating item—group tests should be given, or separate tests made for each section on a different curve.

Mansfield was famous for wrestling and tennis teams with the interest shown in this by the student body. The same could happen again soon if these two sports were reorganized.

Little need be said of the dining room manners. Just do the tion. It extends hope to those of new year are: Mr. R. C. McCommons, al recognition, the new chapter exsame as you do at home.

GRADUATING ATHLETES

Chester Wasilewski - (Chet) (Wash) is a Holy Cross man and one of our few three-letter men here at Mansfield. Winning letters in baseball, football and basketball for the past two years has gained Chet a reserved spot in many of the hearts of our students. A quarter-back this year and ,I am proud to say, "a great one," Chet was switched from the fullback slot early in the season and went on to capture a first team berth on the "All Teachers Team," and an honorable mention on both the "All State" and "All Eastern"

David Cheplick (Dave or Chep) is a name that is well known around this campus. THE O. P. By J. A. Miller

Wednesday, April 21, the ROTC platoon celebrated the near completion of a successful school year with a banquet at the Penn Wells Hotel. The dinner, in keeping with the management's fine tradition, was savory and dream-inspiring. The speeches, made by President Morgan and Colonel Chastaine (head of ROTC at Penn State), were graced with brevitl, timeliness and clarity-traits desirable in any oration. The entertainment, skillfully M. C.' by Francis Pollini, was all that it should be.

Highlighted on the program were the classical piano pounding of Harry Baker and the windy wailing of Raymond Dmobroski on his clarinet. The climax came when Harry Baker, lows! imitating an escaped maniac, sang "My Old Flame" (the song Peter Lorre made a record of). With ranting, raving, gnashing of teeth, and pulling of hair, he tried to recall whether her name was Mabel, Mary, Caroline, or maybe Josephine. At last, in desperation and with a fiendish gleam in his eye, he started toward Gilbert Pry intent on throttling the name from him. Gilbert, believing for the moment that Harry had actually "lost his buttons," backed hurriedly away, knocking down a few stray water glasses in the process. Harry was put back in his straight jacket while he finished his song, but I think the fear of that moment will forever leave a scar on Gilbert's

The affair was brought to a rousing conclusion by the group singing a number of classic old favorites. The platoon then dispersed, except for the hardier souls who sallied forth in search of light amusements -Wellsboro's pin ball machine.

FRESHMAN INITIATION

The Freshman Initiation in all of its glory has come and gone. The new students on the campus have proved to themselves and to others that they could make the transition from routine high school days to the more individualistic college life.

Mansfield is known for good sportsmanship, and upper classmen found the new students responsive in helping to maintain this tradition. With few exceptions, the Freshmen did their part from the wearing of costumes to the participating in Freshmen night antics.

"The Flashlight" reflects the spirit of the entire student body when it congratulates the class of 1952 for nobly upholding one of the school's oldest traditions.

Out of the Geography Department of the M.S.T.C. has come news of great interest to all of us, especially those in the Elementary field, who are specializing in geography. Our Geography Department head, George Langdon, did not spend his summer vacation lying idly under a shady tree. Quite the contrary, he worked all day and far into the night slaving over a hot typewriter. Finally his masterpiece was finished. diligence was rewarded.

For in August of this year a Student Workbook, entitled "Exploring Pennsylvania," was published with George Langdon listed as co-author.

Since your initiation is over and you have been exposed to the public in a rather uncomplimentary manner, you can now blossom out in your best informal dress with your best manners revealing the type of ladies and gentlemen you really are.

Sophomores:-You should be present at the cance to evaluate your accomplishments of the initiation. You aptly ridiculed and exposed the frivolity of youth; however, in due respect to yourselves and to the youth of the nation, your presence is requested.

EDITORIAL

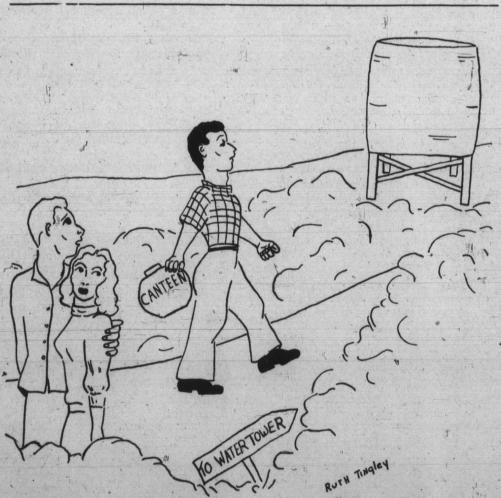

The attendance at assembly problem is with us again this year. The percentage attending the first few programs was alarmingly low. This will have to be corrected. It is getting to the point that if the student body does not show more interest in these programs, attendance will be required.

The faculty student assembly committee work diligently to cho cases have yet been reported. provide you with a variety of subjects—both entertaining and enlightening. Let's show our appreciation by banner attendances the rest of the year.

THE BOOK ROOM SITUATION

The situation in the bookroom has not changed. It is still impossible to get one-third of our required textbooks until the latter weeks of the semester. This must be remedied immediately. As the solution is easy, may we suggest that it is adopted before the next semester?

Instead of waiting to see just who wants the books and ordering the exact amount needed four to six weeks later, we suggest that the books be ordered weeks in advance of the anticipated demand. There is no more work involved. With only a few exceptions, the books are used year in and year out. makes no difference if a dozen or two extra are ordered. They will be sold the next time easily enough. Another time saving device would be to take an approved schedule to the bookroom. their dubious talent on their friends! The clerks could examine this and give you the necessary books for that schedule, eliminate the necessity of taking up both the G-d's and the instructor's time by filling out "book slips". The clerks would also have it much easier following this device.

SECONDARY SCOOP

Hello, Secondary Freshmen! Welcome to M.S.T.C.! And to those already familiar with our Secondary Department, a hearty welcome home. It seems good to be "up on the hill" again, doesn't it? Freshmen (though you may still doubt it) even the memories of your big-greenbow - and - beanie days will soon fade, and you too will begin to feel like old timers.

Something's very wrong some where; there is no Secondary Club! Last year the varied interests of the secondary students prevented any sense of unity among the members. The inevitable result was that we eventually had no Secondary Club at all. This year, though our numbers are greater than even before, we share more common interests. The present number of prospective secdeed. Why can't we have an active club such as those found in all other departments? I'm sure Dr. Nosal would be glad to advise us and help us get started. Think about it, and talk about it; let's see what we can

All those well-dressed gentlemen whom we see on and around the campus represent our secondary student teachers. From all reports and appearances, thy're doing a fine job. It isn't easy to cram facts into impervious heads, and deliver terse lectures to "discipline problems." Aside from unpleasant and routine jobs, however, our student teachers keep their classes interested with stories of war experiences and well-timed jokes. Usually things run smoothly, and from among all the supervisors, student teachers, and pupils, no psy-

A few of the men are: "Irish" Flanagan, Jim Kenney, "Conjo" John McDonald, Ted Randon, "Slim" Snudberg, Charlie Anastranski, Jim Decker, Lee Cleveland, "Gene" McLain, and "Smitty."

Carol Potter and Helen Samson are among our women instructors at Junior High, bust most of the limelight again falls upon the men. For instance: "Gov." WHAT IS AN O. P.?

In combat one observer from each front line unit walks, crawls and finally wriggles on his belt-buckle, just as far forward as possible, dragging a field telephone and wire behind ihm. Selecting a point that will give him a good view of his sector, he spends his time passing information of the firefight back to his superiors - in cur case Sophomores, Juniors, and Seniors. We hope to keep you informed of the action that takes place within our sector of the campus. The observer at the OP also directs artillery fire and lends fire support to the units that are fighting on his group of girls with scads of big flanks. If, from time to time, the observer on this campus drops a battalion salvo of orchids oin some individual or on a group, he is merely . President fulfilling the mission of a well qualified observer. He will do his best to keep his fire on target, on time, and sufficient in volume to obtain the desired effect without waste. Further, he will do his best to see that none of our own troops, (Mansfield students) are hurt by friendly fire. Humor is good fun; gossip is merely amusement for minute minds.

We feel that we are very fortunate to enter college while so many combat veterans are still on the campus. We expect to learn much about the military service from our contacts with men who learned the hard way.

The second year of ROTC shows a gain in enrollment of over thirty percent over last year. A total of sixty-one cadets are enrolled. Mansfield students are permitted to pursue this course of instruction in lieu of Health and Physical Education. To date ten Mansfield men are enrolled, as compared to the three men who joined the Penn Staters in this. class last year. The unit has been organized into four squads with the following named cadets serving as squad leaders:

John F. Bunnel Samuel A. Miller Stewart L. Lerner Joseph P. Hawkins

Cadet Raymond I. Kimble has been ppointed Supply Sergeant and Cadet Donald H. Quint will serve as Armorer-articifer.

WHO'S WHO ON M. S. T. C. CAMPUS

Who's Who Elects Eleven **Outstanding Members**

Each year for the past four years the Student Council has nominated and selected certain of our most worthy students to represent the Mansfield State Teachers College in Who's Who Among Students in American Colleges and Universities.
This year, this highest of scholastic honors has been bestowed upon eight men and three women. In order that those who may not be acquainted with these fine students and, also, to pay individual homage to the latter, The Flashlight hereby gives you a brief resume of their accomplishments at and contributions to M. S. T. C.

First in the line-up is the Student Council's excellent president, Wellington Lester, whose contributions to the success of M.S.T.C. for the past four years comprise an incredible list. Wellington was president of the Freshman Class of '45-'46, secretary of the Student Council as a Sophomore, treasurer of the Student Council as a Junior and is now its president. Besides this, he has spent four years in College Players, two years in Kappa Delta Pi, and three and one-half years in Phi Sigma Pi. Wellington has also found time to serve as delegate to Edinboro (Sophomore year) and Kutztown (Senior year) Teachers' Conference and was sent as delegate to New York at Eastern States Association of Professional Schools for teachers in '48.

Second, we have popular red-headed Charles Anistranski, who has been a most discerning vice-president of the Student Council. A veteran of three and one-half years of service, Charlie has lent his inimitable talent to the success of the M Club. Phi Sigma Pi and the Flashlight. His age I'm not permitted to tell, but rumor hath it, that he's over sixteen. Charlie is a senior in the Secondary Department and will graduate in August.

Next in the line up is pint sized but popular Harold Kintner, able treasurer of the Student Council and Veterans' Wives Hold Students Elect Co-editor of the 1948-49 Password. First Fall Meeting Harold is a Secondary student and graduate in August. Harold is a Phi Sigma Pi member and a member of the Carontawan staff.

Another who is most deserving of the honor being paid him is the Junior Class president, handsome and efficient Jim Decker, who has been an active member of the Secondary Club (two years), Student Council and the Newman Club. He is a veteran of four years service in the U.S. Air Corps. At present, he is a Secondary student, majoring in English and Social Studies and will graduate in May of this year.

Also honored by Who's Who is Wallace Dunmore, the erratic editor of the Flashlight-afraid of nothing and no one. Wally is editor of the Flashlight. A powerful voice on the Student Council, Wally speaks his mind fearlessly and openly on subjects which he feels needs attention. A senior in the Secondary department, Wally graduates in May.

When good-looking, capable Walter Parsons was elected president of the Senior Class of '48-'49, the majority of students and faculty members breathed a sigh of relief. As president of the Senior Class, Walt has a tough assignment but has proved himself worthy of this high honor. He is a member of Phi Sigma Pi and Mary Lou Kyofski is an indispensable reporter on the Flashlight. He is a veteran of three years service in the U.S. Navy. He is a member of the Secondary Department and will graduate in May. The only married member of Who's Who, he is also a proud father.

Also honored by Who's Who is the 1948-49 president of the Men's Dormitory Council, popular Arnold Sundberg. He was elected to take Charles Smith's place and is doing a fine job on his dual assignment as Dorm president and Student Council mem-

"Harvest Moon" Sophomore Hop

The Mansfield State Teachers' College Sophomore Hop, "Harvest Moon," will be held Saturday evening, November 6, in the New College Gymnasium. Dancing will be from 8 to 12 o'clock. Music will be furnished by the local college band, "The Esquires."

Featured will be an exciting new guest star for the first formal dance of the year. This among other surprises will be the highlight of the affair.

Edward Turnberger, Vice-President of the Sophomore Class, is general chairman of the affair. Other committees are as follows: Decoration: Ben Brown, chairman and Betty McCabe, co- chairman; programs, Don Buford and Dorothy Manning, co-chairman; refreshments, Helen Drabert, chairman and Phyllis Cutter, co-chairman; publicity, Jean Ayers, chairman and Richard Sick, co-chairman; orchestra, Richard Sweatland, chairman and Mona Franks, co-chairman.

The first formal dance of the year, usually reserved for the Freshman Class has been changed this year in order to give the Freshman Class offices more time to prepare for their dance to distribute the larger affairs of the year more evenly.

This is your big chance, Freshman, so let's see you support your upperclassmen. It's your first college formal so why not come out in style. And to you the upperclassmen, you all know how successful the dances are and an evening of entertainment planned for your enjoyment has been all arranged.

EDITORIAL

An important decision faces our nation. One in which you, as an intelligent student and vitally important citizen, can influence. I am referring to the coming nation-wide November elections.

Have you, as students, given this matter any real consideration? This pertains directly to you-your life, your family, and your community. We must, as a well-balanced nation, decide on such matters as taxation, school reforms, labor reforms, and many other important legislative problems that enter your home and affect your daily living. In order to do this democratically, our United States has set up a system of voting whereby we, the people of the United States, may have the privilege to participate in our nation's affairs. It is up to us to support our government and give it our full cooperation.

One difficulty to be faced is getting out to vote; but a more serious one is voting intelligently. It is sometimes very difficult to put aside one's prejudices and examine the worth of each candidate before we reach a sound conclusion. There is only one solution to this problem. Get in and dig it out. Get to know your candidates up for office by obtaining and reading inpartial information on their platforms and qualifications. Have a clear understanding of each platform so that you can discuss it with others who are well informed and can give you new angles on your conclusions. Notice! I said NEWS PAPERS. I mean just that! You need the matter thoroughly discussed and chewed before you are really ready to digest it. Last of all, obtain clear and simple instructons on voting procedure. Then use it. Go to the polls and vote.

Remember, Young America, this is YOUR opportunity to express YOUR personal opinion on the perplexing problems that face our nation. It's YOUR turn to do something about it!

Thanks to Doctors Gabriel and Whitsett from Blossburg, and to our own Doctor "Steve" Evans of Mansfield, the cadets will soon know exactly how they stand in reference to the physical requirements for obtaining a commission. The services rendered by these professional men, without charge has given us food for some serious thought. When mature and war-experienced citizens are willing to devote so much time and effort toward improving our national defense it is time for us to wake up to the fact that we must shortly take our places as citizens and assume some of the same responsibilities in the same cheerful manner. Theirs is the best method of teaching an essential lesson — by setting example!

Can ROTC cadets be drafted? In fact, each cadet volunteers to serve for two years in the armed forces immediately after graduation. Each college authorized to accept ROTC cadets is allotted a quota of exemptions to be awarded to cadets and Philip Brown. who prove, day by day, that they are capable of leading troops in battle. It is up to the individual cadet to earn an exemption that will permit him to complete four years of college prior to performing his military service. Exemptions are awarded on a competitive basis with scholastic averages, leadership ability, and the results of the Department of the Army RQ-3 tests serving to separate the men from the boys. Cadets who fail to meet the standards are reported to their local draft

Last week the cadets decided upon their military fields of specializalization. Stated branch preferences were as follows:

This observer wonders if a certain instructor — who has been wearing the crossed rifles of the gravel agitators for thirteen years - had anything to do with the final results. In class we were told that combat in the Infantry was "-the meanest, dirtiest work in the world-" and "-all of this talk about glory and adventure is a crock of malarkey-it's just hard, dirty WORK!" And so over forty per cent of the class elected to become Second Lieutenants, Infantry.

Arriving in Lewisburg at 10 o'clock, the class was shown through the Lewisburg Mills. They observed twisting, spinning, carding, combing, dying, and weaving processes.

Before lunch, the class saw the actual weaving of nylon hosiery in the O. K. Hosiery Mill in Selinsgrove. After leaving the mill, the group ate lunch in the Colonial Tea Room in Selinsgrove.

Having eaten, the girls boarded the bus en route to Sunbury and the Susquehanna Mills. Here they observed the making of silk and rayon fabrics and materials for plastic seat covers.

In Sunbury the girls toured the Butter Krust Bakery. This observation started with the tour of the storage rooms, the yeast making, the mixers, conveyors, ovens, and finally the icing, wrapping and packing of the baked goods. Before leaving the bakery, each student received a package of cinnamon buns munch on the return home.

EDITORIAL

How far does your sense of responsibility lead you?

In many cases the answer is "not very far". Just what there is the underlying reason for this apparent lack of responsibility? Is it because the individual in the past has been shielded by others who have accepted the duties or is it because responsibility has not been placed upon the right sources?

This is a pertinent question for you, as student in Mansfild and a future teacher of America to consider. Responsibility is one of the most outstanding qualifications of character and it is one of the many points on which character is judged.

To be able to accept responsibility, the student must understand the duties placed upop him. Duties that begin in the class room and extend to various campus activities. It is a teacher's job to place responsibility when we show a serious lack of accepting it? Maybe this har, been the fault in the past! Sometimes it is not always the stortcomings of the student but of the teacher who has failed utterly to teach and impress the real value of responsibility. Or raybe it's because teachers have not placed students in a position to accept responsibilities and that is why we are now faced with individuals who cannot accept the duties placed upon them. In a situation such as this, the result is NO organization, NO co-operation, and NO school spirit!

It is so easy to sit back and criticize and "gripe" about how things are done, but how many students accept the responsibility of voting for class officers, of attending club meetings, of cooperating in student activities to further student interest? In most cases the answer is INDIFFERENCE. Oh, there is plenty of reaction with words, but much too little is actually being done! O.K. students, so you do have some gripes. Why not be big enough to take the responsibility of presenting your situation to your student council? That is where student problems should be discussed and settled. Or if it is a controversial question that you wish the student body as a whole to consider, take the responsibility of sitting down and writing the item to be printed in THE FLASHLIGHT. That is what is usually termed in other schools as SCHOOL SPIRIT. That is exactly what we lack. Why? Because where there is lack of RESPONSIBILITY there is also lack of SCHOOL SPIRIT

Does this "strike a familiar chord"?

PANTHEISTIC CHOIR

As morning dawned, I raised my eyes And quietly listened there; heard ten million voices Swell upward through the air.

The phantom chorus echoed high From mountain top to vale; Its vibrance tore at souls, Until a rapture did prevail.

One can't resist its might; For once you wake at early dawn You've grasped a heavenly light.

So standing, did I feel a part Of this volumnous spire-And scanned my soul for words To join this pantheistic choir.

Today a very large percentage of those reminders of World War II are very rapidly disappearing. Most of our veterans have dropped deep into their roles as civilians. Occasionally our eyes fall upon a stray "ruptured duck" still trapped in someone's lapel. The "bull sessions" have been converted from war experiences to topics of football, baseball, new cars, and "what I'll do when I graduate." As time goes by the "just out of high school boys" are being accepted as one of us rather than being looked down upon.

Are these signs that M.S.T.C. is returning to normal life? I think that it is a good indication that we of M.S.T.C. and all other phases of American life are returning to normalcy. Personally, I like the whole idea and I know that the rest of you wish to see it remain that way.

Shortly thereafter, Mike DeNoia took Bill Johnson's kick on the 24 and romped 76 yards to give Scranton its fifth and final tally. Kaplan added his third conversion.

The second half was a different story as far as Mansfield was concerned. The Mountaineers found themselves midway in the third stanza and marched 69 yards for their initial score. This parade was launched by a trick intentional fumble which produced Mansfields' biggest gain. Joe Katusz, a guard, picked up the quarterback's intentional fumble and picked up 35 yds. to put the ball on the Scranton 18. A lateral play, Conwell to Burian, picked up fifteen and the ball rested on the three as the period ended.

On third down Conwell passed to Pete Dokas standing in the endzone. Just minutes later Boland fumbled deep in Scrantons' territory and the Mountaineers recovered. Another pass. Conwell to Dokas, was good for the Mountaineers' second tally.

A Savior had been born in a little stable in Bethlehem over the fact that topics relative to the two thousand years ago, but the memory of the birth has been cherished and has lived down through the centuries. The same sacred traditions of the Christmas season are still celebrated each year in the hearts of the faithful.

Many of these traditions have been kept at Mansfield. The warmth and cheer of the Christmas spirit may be seen and felt all over the campus. North Hall is transformed from the regular routine business and living quarters to a fantasy of Christmas legend. Each well, from the first to the sixth, speaks with a pine fragrance of the peace, holiness, and happiness brought by the season. The bright lights, the holly, and the evergreen from the elementary building to South Hall bespeaks the spirit that lies within. The lighted candles and solemn tree ceremonies enlightens the hearts with an overwhelming peace and contentment. The carolers spread "good-fellowship" in harmonious blending of melodies ringing out in the cold, crisp air. The seven tolling realize and feel the same as I church bells recall the true significance of the holy season.

The outward flickers of Christmas Spirit are present through tradition to inspire and create the far more important inside flickers. The feeling of "Peace on earth and good will toward men," can only come from the giving of happiness to others. The inside decorations of love, of understanding, and of consideration for others, will shine forth creating a light that may lead to the deepest and fullest contentment of the Yuletide season.

G. I. Issues

By Glenn Hewitt

In the columnthat I wrote for the last issue of this paper I emphasized past war were rapidly disappearing. I also expressed the opinion that I believed it was high time we switched our thinking from the past to the future. At this time I would like to take one parting shot at the topic and henceforth I shall endeavor to practice what I preach,

We all realize that war is a very bad thing, but the fact remains that some good comes from everything regardless of how bad it may seem. At this time I would like to express my thanks for some of the good things that I have received from my service career. Some may scoff at my attitude, but I know that there are a great many veterans here on our campus, and elsewhere, who should

G. I.'s were considered a product of the war period itself but, in my opinion, the few years following separation from the service, has made me feel more like something government issued than I did while I was in the service. I have made a list of a few of the reasons that have made me feel as I do. with, I feel that the clothing that I mentioned in my previous article has been a very important thing. I have made very good use of the wearing apparel which I received from Uncle Sam. Another thing in the line of material things which most of us here have received from our "Uncle" has been of the utmost importance through our college careers. There would be far fewer individuals attending colleges throughout The United States today if we had not received that assistance. The Veterans' Administration should be highly commended for the services they have rendered to the G. I.'s in many fields, which include such things as insurance problems, guidance in pursuant fields, and personal matters. Their interest in us as individuals has been of the utmost importantce in shaping many new lives. Speaking of Insurance, there is another very important item which we have received from "Uncle Sam." Probably many are like me in being worth more dead than alive.

Aside from material things there are many more things that have been "issued." Many of us obtained many technical skills which are very useful to us in our everyday lives. Others have managed to build careers as a result of their application of service acquired skills. In our class work we have been able to maintain a good standing from the scholastic point of view. Much of this can be attributed to first hand usage of scientific and geographical knowledge. Our attitudes and outlooks have been broadened and at the same time our goals have become more definite.

We have also made many friends of individuals who live throughout our country, and they are very pleasant to have. Many are like I am and can travel all over the United States and manage to have a friend to sponge a night's lodging from with out having to spend a night in the cold between stops. Ability to use up leisure time has been one of the greatest contributions of our service careers. Waiting around is a byword of "Uncle Sam's" subordinates and the ability to do this without going stir-crazy is an asset to anyone.

One of the most outstanding effects of my service career has been the development of an incentive to acquire a college education. My time in the service helped me to realize the importance and benefits of such an education.

I have attempted in this article to bring out a few of the very beneficial items that I have received as a G. I. I wonder how many of the other veterans have profited from dividends from our "Uncle's" good will from being "G. I. Issued."

ROUND TABLE DISCUSSION

The question for this month's column is: "DO YOU THINK THERE ARE ENOUGH EXTRA-CURRICULAR ACTIVITIES ON THIS COLLEGE CAMPUS?"

Elaine Davis: "No, I don't think so. I think there should be some activity after seven-thirty on week day nights. The Student Center should be open to both sexes until at least nine o'clock. There should be at least two activities provided for Friday and Saturday nights for some of the students have seen the movie and that leaves nothing to do but go down town."

Glenn Hewitt: "Yes, I think there are too many. The same people are in all of them, and they can not do justice to any. Too many want them solely for their epitaph in the year-book, or in their home-town newspaper."

Tillie Koslosky: "No, I don't thnk so. Over a week-end when you stay here if you don't go to the dance and movie you have no place to go. For girls, I don't think there are enough activities, but for the fellows there seems to be plenty to occupy their time.'

Miss Wasley: "Values which extra-curricular activities contribute to college life are many and important. However, vital questions each student should decide are: 'How much time and energy should I spend in participating in extra-curricular activities and which activities will have the most value for me?' A student who has carefully analyzed the purposes he hopes to derive from a college education will be careful not to spend too much time in extra-curricular activities so that these activities will become a detriment to his academic and physical well being rather than lead to his self-development. At Mansfield it seems that the number of extra-curricular activities is adequate and with proper guidance the student should select those activities which will be most meaningful to him."

NOTE: Many of the students are not satisfield with the quality and quantity of activities provided for them. We would like suggestions on any activity which you feel should be included in the campus program. Please put all your ideas and suggestions in the box found on NH223 door. Immediate action will be taken to bring these maters

Swan's Down

"Good evening, ladies and gentlemen. This evening, for you entertainment, the associated press with its nationwide hookup, is bringing you a new sensation in sports. We traveled all the way to Mansfield, Pa., the crossroads of the country, to bring you this sensational football game. Since the draft act, Mansfield State Teachers College, like countless other colleges and universities, has felt the loss of manpower. Tonight, just to prove that Mansfield is first in many things, the female faculty has consented to battle the female student body in a 60minute football thriller. The respective teams have been practicing for weeks. But just a minutes, ladies and gentlemen, Coach O'Brien has her players in a huddle. I'll read the lineup and the players will trot off to take their trotage. Here they are: left guard, Wasley; at center, right guard, Morales; left tackle, Ato water; right tackle, Palmer; left end, Fiat, and right end, Randall. In the backfield we have Dieffenbach at quarterback, Reed, right half back-Aften, left half back and the one on whom all eyes are fastened-Swan at full back.

"Coach Pierce has her girls all ready. Now for their line up-Masterson, center; right guard, Strom; left guard, Tompkins; right tackle, McCawley: left tackle, Ford; right end. Varcoe and left end. Tingley. In the backfield it's Lehner at quarterback, Schmelzel, right half back; Keeler, left half back, and Yeager, full back.

"And now for the game. There's the whistle and Tingley races to the bail lifting it high, high into the air in a beautiful spiral down deep into faculty territory. But there's Swan under it—she has it and races up the field-up to the 30, the 35, the 40. It looks like a clean sweep behind the superb blocking of Duff and Mor ales, but wait-here comes McCawley in for the tackle and Swan's down, stopped on the students' 34 yard line. Here come the faculty out of their huddle cheering lustily. Lots of confidence after that beautiand sense of responsibility. Here ful run by Swan. The ball is snaplaterals to Allen who picks up a first students 7."

down. The ball rests on the 23rd yard line. There goes Swan through the middle of the line scattering players right and left. And here comes Ford after her and Swan's down, but the ball is over the line and it's a touchdown! And here's Swan attempting the extra point, but Tingley bats it down. Folks, in just 3 sensational plays the faculty has marched 80 yards for a t.d.

"There's Swan kicking off and Lehner takes it on her own 25. She's advancing behind the blocking of Varcoe and McCawley, but she's stopped cold by Wasley. There's a long pass from Lehner to Schmelzle, but it's batted down by Randall. Second down and 10 to go. Here comes Yeager through center to pick up two precious yards. Morales was in on the tackle. Out of the huddle-it looks like a pass. It's a short one to Varcoe but Randall intercepts and laterals to Fiat. Suddenly Tingley intercepts and romps off for a t.d. Whew, how that girl can run! Here's Yeager attempting the extra point. And it's good, making the faculty 6,

"Faculty calls time out. comes matron Fields with a chisel to scrape the mud off the players shoes. And there's the half.

"And now for your entertainment here's the trio to play for you. It's Mr. Cure at the fife, Mr. Ledwith on the drum, and Mr. Jupenlaz carrying the flag. A real spirt of '76.

"Here come the two teams eager for action. Both coach O'Brien and Pierce look confident. There's Swan kicking off and fleet-footed Scmelzle receiving-wait she fumbles and Atwater recovers for the faculty. Here comes Reed around her own end for a gain of 4 yards. She is stopped by the entire student line. But on the 4th down Dieffenbach punts and Yeager receives. Both lines hold firm and there is little gain on either side. Here it is with only 60 seconds left to play and the faculty's ball on a 4th down, and still 10 yards to go. There goes Swan back in punt position, but she's going to pass on a last desperate chance. But no one is clear. She's running - no no, wait Swan's down-no she's up - here comes Strom trying for the tackle, but she misses and Swan is up and running. There she goes. over the line and SWAN'S down. But she made it. Listen to the crowd again I would like to express my sin- ped to Swan. But Swan's down be- yell. COACH CASEY LINES-UP VARSITY BASKETBALL TEAM

45 Candidates Answer Call for Varsity Basketball

Coach "Ted" Casey called practice for the varsity basketball team, and 45 hopeful candidaes answered the call. From the looks of the squad, it is going to be very hard to make the team this year.

With the return of five lettermen, the Mountaineers face a tough 15game schedule. Heading the list of lettermen is Co-Captain Ted Randon. Ted, a guy with a lot of "know-how" and ability, is expected to have a banner season this year. For two consecutive years Ted finished with the honor of being the team's secondhighest scorer. The first year he was just behind Ray Kodish, and the second year just trailing Joe Harrington. The two-letter players are now with the professional Williamsport Billies. Next in line is one of our few threelettermen, a guy who doesn't score too much, but who has a very high assist record: Bill Johnson. Bill is considered one of the finest floormen in this part of the state. Next is Ken Perschaw, a little lad who stands 6' 5". A very vital cog in Mansfield's offense, Kenny will also be counted on to get many of the enemy's rebounds. Next in line is Bobby Patton, a fellow whose amazing shots from mid-court during the Kutztown encounter last year will long be remembered here at M.S.T.C. Bobby is a great man and is expected to have a great season. Last, but not least, is Ray Mazza, one of the most aggressive athletes M.S.T.C. has ever had. Ray is a fellow who is always fighting hard for a victory.

The loss of Co-Captain Joe Harrington, Jerry McEneny, Earl Wilson, and Chet Wasilewski has hampered the Mountaineers' chances for a championship, but with the returning lettermen and new candidates, the Mountaineers should also ride on the victory train. Wasilewski and Wilson were lost through graduation, and Harrington turned to the professional ranks. McEneny has decided to drop the sport in favor of a job.
